Daily Intelligence.
BELLEVILLE, FRIDAY, NOV. 3.

Town and Vicinity.

Police.—The town was quiet last night; no trouble being at the station, and only one vagrant was arrested.

Trains.—Several members of No. 1 Company of the 49th were out for target practice yesterday. The scores generally were small, but this is not to be wondered at, as most of the men have had no practice.

The Water Supply.—Workmen are busy on Church Street making the excavations for the pipes which are to convey water from the spring on the globe property to a tank to be placed on the street in question.

Crop Season.—The close season for white fish and salmon trout commenced on the 1st and will terminate on the 10th, at a fact by which all fishermen, traders, and the Inspector, will govern themselves accordingly.

Accidental Time Tables.—The November issue of this excellent and finely got up traveller's guide has been received. It is a valuable addition to the series, and is published by the National Railway Publication Company No. 233 South Fifth Street, Philadelphia, Pa. 25c.

Fire in Prince Edward.—On Wednesday morning, during the thunder storm, the barn of Mr. Samuel Pearson, about five miles from Wellington, was struck and fired by lightning. The barn and adjoining sheds were destroyed, together with their contents, and one horse was also burned to death.

As usual.—At C. Co. Commercial House, are taking the lead in overcoats. They are now selling an overcoat for \$3.50 and a pair of trousers for \$2.50, which are the wonder of the age. They also have at present an unusually large and varied stock of winter clothing in all styles, shades and qualities at extraordinary low prices.

Thanksgiving Day.—The observance of Thanksgiving day was not so general as it should have been, a good many places of business being open as usual. There was a limited attendance at the churches, and a large number of sportsmen went out in pursuit of game, but their success was not great, by any means. The weather during part of the day was foggy, yet mild and not unpleasant, but rain began to fall early in the evening and the latter part of the day was dull and gloomy.

A Good Loss.—An exchange says:—"An hotel-keeper complains that he has been served with notices from wives and others not to sell liquor to their relatives on account of their being 'habitual drunkards.' He very reasonably upes that the notice should be accompanied by a description which he might hang up in his bar-room as a guide to the bar-tender. It is not likely the tipplers would care about being in the 'drunkard's gallery,' and the fear of occupying a position that would bring a severe as a debarment from a too prevalent vice."

Federal Reform.—The Kingston News says:—"A commendable innovation was noticed at the funeral of Mr. Gray, viz., the entire absence of the too frequent display of crepe and other trappings. This is a step in the right direction, and fully carried out the views of the lamented deceased on this question. We hope to hear of its being generally followed and the assumed license of Hallowell, and the amount of the useless expense of funerals done away with. We conceive that such displays are no more evidence of respect for the memory of deceased persons than the use of those who wear crepe."

The Foul Rev.—We cordially agree with the following remarks of the London Free Press:—"It is quite true that an end was put to the outrages perpetrated under the assumed license of Hallowell. The eye-grown 'galloids' who carry things so far as to be made to understand that such unbridled license is not to be tolerated in a city which claims to be decently regulated and that they are not living in an unbridled town of London as they have to turn the town into a garden or a lunatic asylum for the amusement of a mob. There was a time when such things had high and even sacredness, but we must go back over 300 years to find it. And it is a great credit to the progressive state of modern youth that they so freely perpetuate the same kind of insolence which a Scottish Parliament in 1566 was obliged to suppress by enactment."

PERSONAL.—Mr. Young of the Stratford Beacon, was in town to-day.

GRAIN MARKET.—The market was flat to-day at 60c for No. 2 barley and 68c for No. 1. Transactions were light.

VITAL STATISTICS.—The following are the vital statistics for the month of October, as registered at the Town Clerk's Office: Births, 21; Marriages, 10; Deaths, 18.

CUSTOMS COLLECTIONS.—The customs duties collected at the port of Belleville for the month of October, were \$9,317.30. Same month last year \$9,300.95. Increase \$16.35.

INSURE REVENUE.—The collection for the Belleville Division for the month of October was: Tobacco, \$400; Spirits, \$3,740.64; Licenses, \$600.40; Mail, \$107.11; Miscellaneous, \$8.00. Total, \$4,896.15. For the same month last year, \$4,879.20. Increase, \$16.95.

DECLINE IN FUR.—A private despatch received by Mr. Dulmage, agent of the Hudson Bay Company, from Leizig, states that at the September sale, furs in London, there was a falling off in prices from 20 to 30 per cent. Buyers are ordered to purchase buying at 20 per cent under last year's prices.

MARINE.—The fog yesterday delayed the steamer considerably. The Shannon got away on Thursday night, but did not succeed in getting off again. The ship had to wait the night before, after a vain attempt to proceed to Truro. The steamer did not make her usual trip. The schooner Elyria is discharging a load of corn from Buffalo at the Farmers' Warehousing Company's dock. The schooner Yellie is taking 70,000 bushels of barley at Campbell & Co's. The schooner British Queen is loading dry at Prety's dock.

A WARNING TO INSURERS.—Notwithstanding the frequency with which the question has come up, the courts, some persons appear to be totally unaware of the importance of communicating all changes in tenancy, &c., to the companies in which the property is insured. If a party moves and has not informed the company, and the property be destroyed, the company would not have been legally liable for the amount insured, and it would have rested with the board to say whether it should be paid. The insurers will do well to bear in mind this case in point.

TRACT SOCIETY.—The annual meeting of the Religious Tract and Book Society will be held (D. V.) on Monday evening, 6th November, at 7:30 o'clock sharp, in the lecture room of St. Andrew's Church. The Society's agent, Rev. O. S. Eastman, will read the claims of the World's Christian Mission, the Shanty Mission, and other benevolent work of the Society. Address will be delivered by resident ministers. The public are cordially invited to attend. The question will be taken up. The Committee will meet for the transaction of business, half-an-hour before the regular meeting.

ASTRONOMY.—The Rev. John Burton delivered a lecture on this subject last evening in the Blocker Street Church. Owing to the disagreeable aspect of the weather the attendance was very small. Notwithstanding this fact, however, the lecture was delivered and highly appreciated by those fortunate enough to be present. Numerous practical illustrations of the methods employed by astronomers in calculating distances, together with the story of astronomical discovery and other interesting researches, combined to make the lecture one of rare interest and instructive value.

PEITZ TATER.—This is the season of the year when the cute apple-tree peddler from the other side of the line, whose character has become so well known in his own country, that he is not alive any more, but whose name is still known to the people of this section of the country for the field of his labor, and our agriculturalists for his victims. We trust our farmers have learned of wisdom by past experience, and they will give these peddlers little or no attention. We have good reliable Canadian agriculture quite conveniently located in Ontario, whose trees in case of failure will be replaced, and whose varieties are almost as numerous as really useful trees as the itinerant peddler pretends to have. Give our home producers a trial, and we are sure they will give much greater satisfaction.

Young Men's Christian Association.—At a meeting of the Belleville Young Men's Christian Association, held on Wednesday evening, in the room over the People's Store, the following officers were unanimously elected: President, W. H. Hallett; Vice-President, H. W. Brannan; Secretary, W. H. Hallett; Treasurer, E. F. Shaw; and Librarian, W. H. Hallett.

MORNING DESPATCHES.

EUROPEAN.

THE EASTERN WAR.

An Armistice Concluded and a good Prospect of Peace Assured.

Turkey's Representation in the Conference of Powers.
FRANCE DECLINES FOR NEUTRALITY.

Pacific Proposals from Roumania.
THE NEGOTIATIONS.

BUCHAREST, Nov. 2.—The Roumanian Senate and Chamber of Deputies assembled in extraordinary session to-day. The reigning Prince occupied the session with a remarkable speech, in the course of which he said:—"We receive from the guaranteeing Powers every inducement to maintain neutrality. We are fully convinced tranquility will be restored in the immediate future."

PARIS, Nov. 2.—The Duke de Cassa has declared officially before the Budget Committee that the Government intends to maintain absolute neutrality in the event of complications in the East.

ST. PETERSBURG, Nov. 2.—An official telegram received here from Gen. Ignatieff announces that the Porte has accepted a two-month armistice beginning Nov. 1st, and has ordered the immediate cessation of hostilities.

BERLIN, Nov. 2.—It is officially announced that both armies will retain the positions they now hold.

LONDON, Nov. 3.—The Post publishes in an official form the following paragraph:—"Turkey having accepted the armistice, we understand that Russia has taken immediate steps to press forward the negotiations for the arrangement of all pending questions on the basis of the English proposals."

THE Post also states that the official investigation shows that only 5,100 were killed by the Turks in Bulgaria.

A Russian telegram from Constantinople says:—"It is believed that the Conference will assemble shortly."

NEW YORK, Nov. 3.—A Herald special report among rumors that distribute of settlement of the Eastern question through pending negotiations, that Russia was to cede Turkey from the conference, and it is thought that it should proceed in doing so war is almost sure to follow as a necessary consequence. Russia intends to propose that the revenue of the revolted provinces should be deposited in the Ottoman Bank to pay the interest of Turkish debt—a proposition which the Porte will hardly accept except compelled by force, and then the question becomes once more so complicated that it is hard to see how a general war can be started. The most significant rumor of all is that Turkey is to protect Russian subjects in Turkish territory in the event of war being declared.

AMERICAN.

Deliberate Suicide.

A DEFAULTER SURRENDERS.

CRUELTY ON SHIP-BOARD.

NEW YORK, Nov. 3.—Miss Lucy Conklin, 33, left her sister's room on Wednesday evening, saying 'you will never see me again.' Yesterday her body was found in the East River, at the foot of East 25th Street, with a smoothing iron attached to each foot.

Paul Herndon, the missing Union Hill Broker, walked into Sheriff Laver's office in Jersey City yesterday. He said he had been accused of embezzling \$25,000, and wanted to surrender himself. The Sheriff said that although he had no attachment against Herndon's property, he had none against him personally and designed to arrest him.

Capt. Joseph S. Grindle, late master of the ship St. Mori, was yesterday convicted of cruel and unusual punishment in flogging a sailor known as "Long Tom," from which flogging the sailor died. One of the jurors said that they could not convict under the law, but they did not want the public to think they held Capt. Grindle blameless.

AFTERNOON DESPATCHES.

NEW YORK, Nov. 3.—At the close of the Democratic demonstration at half past one this morning Gov. Tilden, in response to a cable, wrote as follows:—"Yellow citizenship. This grand demonstration is a sacrifice to success. Do your duty on Tuesday next as nobly as you have done it to-night. Our success means peace, reconciliation and fraternity among all our people of every class and race. It means national credit founded on the solid basis of a united people, a frugal administration and honest and just Government. I will bring a resolution of our half of one per cent in interest on our bonded national indebtedness, now below the lowest rates at which any man has been negotiated, which in a period of 38 years would save the people \$150,000,000 of the 670,000,000 proposed to be issued at 4 per cent. It would mean giving fair play to the leading industries of nations in restoring our business and industries to a healthy condition, which had administration has inspired and for the time destroyed."

LONDON, Nov. 3.—The Liverpool Post to-day says yesterday was the most successful day the cotton market has experienced for years, and the enormous sale has thrown business altogether out of gear. Yarn prices are raised, and all are in the market at about 10 per cent advance but they are mostly declined. High business results. Exports of yarn are also high, and show in most cases a larger advance. Business in cloth is at a standstill. Buyers do not follow the upward movement eagerly, and sellers dare not go on, even at the full price, without further instructions from their principals.

The Liverpool Courier says:—"For some days the Turkish-Serbian armistice, now announced, has been confidently expected, and the Manchester market for cotton yarn, as well as our cotton market, are consequently regaining in tone. Only upon one occasion, upon the report of the American Civil War, have the sales reached such a figure as announced yesterday, and at Manchester with a lessened price, business was active and transactions large."

SALEN, N. J., Nov. 3.—Conrad for the defense in the Walker homicide case this morning moved for a new trial for the convicted persons, which was refused. They will probably be sentenced to-day.

WASHINGTON, Nov. 3.—For the lower lakes and Middle States, westerly winds, stationary or lower temperature, cloudy weather, and occasional light rain, with rising barometer.

FROM IRROQUOI.
A DEUTCHARD'S DEATH.
IRROQUOI, Nov. 3.—Last night's man named Deutchard, died at the Hotel of Wm. Gamble, while under the influence of liquor. A report says he drank two pints of whiskey, after which he was put in the stable of Gamble, and was found dead about 8 o'clock in the evening. The coroner was notified to call on the inquest on the body, when the facts of the case will be brought to light.

Outbreak in Japan.
MANY OFFICIALS SLAIN.—THE REBELS PUT DOWN.
LONDON, Nov. 1.—The following telegram has been received at the Japanese Embassy, in this city. Some portions of the dispatch are unintelligible to the Embassy itself, but it is intimated that serious disturbances have occurred. The Kumaishi Shingiku Sangous class revolted on the night of the 25th October, killing many of the officials. They were soon subdued. The Imperial troops also fought, and overcame the Kumaishi Shingiku, near Kōbe. Hundreds were slain. The Yamaishi Shingiku rose and escaped. Orders were issued for their arrest.

Cannot Compare.
As a cure for cramps and pains, nothing compares with STANTON'S PAIN-RELEVER.

SMOKING is looked upon by many as a great evil, which it undoubtedly is, when carried to excess, and it is well known that nearly all smokers, smoke too much. This is a certain sooner or later to cause much suffering, and the best way to counteract the bad effects of tobacco, in the system, is to keep the blood pure and healthy by using SMITH'S GREAT MONTHLY RENOVATOR.

Daily Intelligencer.

Belleville, Monday, Nov. 13.
Town and Vicinity.

TOWN COUNCIL.—A regular meeting will be held to-night. Let us have peace.
GRAIN MARKET.—Barley was unchanged; Rye brought 60c; Oats 40c to 42c; and Wheat 65c to 66c.

PORTFOLIO.—The entertainment in aid of the library of No. 5 school has been postponed until Wednesday evening.

THE CELLS.—There were six troops in the cells on Saturday night and no prisoners. Last night there was one prisoner and no troops.

MEMORIALS.—Have. Col. Burgess and troops will appear to-night. No doubt a very large audience will greet the favorite Col. and accompanying artists.

MAINE.—The schooner *Alma* is unloading coal at Danvers & Pope's; the schooner *Wm. E.* is loading lumber at the Farmers' Warehousing Company's elevator.

ANOTHER LOT OF OVERCOATS and suits received to-day at C. E. Pierce's. Elephant Clothing Store, Front Street. The suit still continues for cheap clothing. \$3.

PROMOTION.—Major Butler, of the 49th Battalion, has, we are glad to see, received the brevet rank of Lieutenant-Colonel, having served the full time required by the regulations of the province. May he long live to enjoy the rank.

CUSTOMS.—The *Canada Gazette* of the 11th Nov. contains the following appointment in the Customs of this County: "Thomas Gibb Pile, of Mill Point, in the Province of Ontario, Gentlemen, to be a Landing Warden and Searcher in Her Majesty's Customs."

BUILDING.—The weather is fortunately very favorable for building operations, which are being pushed on with vigor. All the new buildings have not been kept so busy as last year, yet a very large amount of work has been done, several of the structures put up this year being very large and expensive—namely Robertson's new hotel, the new house, Graham's terminal, the Methodist church in West Belleville, &c. We roughly estimate the number of buildings erected in town this year at 70, costing \$100,000. These figures are under, rather than over the mark.

SERIES OF ACCIDENTS.—On Saturday last two men of Mr. Abbott, sawing machine men, were in West Belleville, were turning a saw machine for cutting up sawlogs, which turns with two handles, one on each side of the machine. The little fellows began seeing to "hurry up" the job, but unfortunately the cost of one of the two boys, who is about twelve years of age, caught in the cog wheel of the machine, drawing him in the cog wheel and tearing him in a fearful manner, almost cutting a piece three inches square from the scalp. He was laid out upon both cheeks, one of the cuts reaching from the temple along the side of the face, and under the chin, at the root of the tongue breaking the jaw bone on both sides. Some of the little fellow's teeth were taken out of the cut in the neck. He also received several serious wounds on the body. Dr. Wilson and Ridley were called in and did all in their power to alleviate his sufferings; but slight hopes are entertained of his recovery.

MURKIN TRIP.—The Picton News has the following bit at the Belleville police: "Belleville policemen are evidently anxious to distinguish themselves. A respectable young man left Picton on Thursday last to spend Thanksgiving day with his friends in Belleville, and while there, to his astonishment, a constable who has known him since he was knee high to a grasshopper, stopped and arrested him on charge of some heinous crime committed in Picton. The young gentleman was placed in *detenu* and 11 day Friday without being informed of the nature of the charge, although every man was given by scores of friends that the authorities were laboring under a mistake. The evening he was liberated, but the no very good feeling in the case. The police the policeman who was the means of arrest which he thinks was made to gratify petty spite, and which was a most serious loss to the victim. The case was a very one of mistaken identity, and it seems as if it might readily be excused on a ground. 'Overlook' was no excuse on the part of the police officers, therefore it ought not to give any pleasure that in the Belleville police it happens in the political firm."

INACTIVE TALK.—The teacher used to build churches in that country, and with appropriate words, which cannot be referred to any other object, point, as with silent lips, to the sky and the stars. These authors into whose hands nature placed a magic wand, with which they were taught to think the Father, and the Father in life, than the darkness between, and we are reconciled to existence and are placed among the benefactors of human race.

Fall in His Sermon.—An interesting sermon was given by the Rev. Mr. Wm. Laidlaw, Minister, on Sunday, when returning from church. Church should use, Wm. Laidlaw's *Practical Path*, they cure nervous prostration.

Seasonable Topics.

Fino weather for completing building operations, heretofore, and builders are taking advantage of it.

At Amherstburg the price of bread has been raised. Two pound loaf now sells for 7 cents, three pound for 10 cents, and four pound for 14 cents. This is a cent per loaf worse than Belleville.

A man whose mouth is fringed with a heavy mustache may be as proud as he chooses, but he don't appear to advantage while the soup is on the table.

They say that all the rheumatic votaries in town are dodging candidates who shake hands now-a-days.

"Leave us their time to fall," and fall it its time to leave, so there ain't much advantage any more.

The weather is fine enough for the traditional Indian Summer, which doubtless is with us. Many persons are anxious that Vennor should "speak now" and forecast the probabilities of the remainder of November.

The time is fast approaching when the fickle will relax its hold on the caves and endeavor to split the cranium of the tramp who persists in ringing the door bell for 40 consecutive minutes. And some people would term this divine vengeance.

Waterproofs and high boots are now the rule, and the ladies no longer permit their skirts to sweep the ground. We suggest this accounts for the fashion which the ladies now have, of keeping their trails graced in their hands, even when the mud does not prevail. Force of habit, you know.

It was Tom Hood who wrote of this month: "No sun, no moon, no morn, no noon, no warmth, no cheerfulness, no healthful ease, no comfortable feel in any member, shade, no shade, no hotness, no breeze, no fruits, no flowers, no leaves, no birds, NOVEMBER!"

Children must have love inside the house and fresh air, and good play and some good companionship outside—otherwise young folk will grow the groutier in the world of withering or growing stunted, at best prematurely old and turned inward on itself.

Police Court.
(Before A. Diamond, Esq., P.M.)

MONDAY, NOV. 13.
DISMISSED.

The case of Nelson vs. Drinkwater was dismissed with costs.

John Scott was discharged, on promising to go to work.

TRAINING WITHOUT LICENSE.
The charge against James Hill was allowed to drop.

Alban Wallace was similarly charged. It was shown that defendant had misapprehended his position, and the case was allowed to lapse on his promising to take out a license.

OBSTINATE STREET.
Hercules A. Thompson was charged as a nuisance on the street.

Elizabeth Whitlock was sent to goal for six months.

The Czar said that during his entire reign his energies have been directed to making good his promise for the Eastern Christians. Unfortunately his efforts have been in vain. A Conference of the Powers is now about to meet at Constantinople, the non-acceptance would compel Russia to take up arms, in that event his speech was received with enthusiasm.

The Fenian Scour.

PREVAILING SCOURGE—MILITARY MOVEMENTS.

NEWPORT, N. S. Nov. 16.—Last night

passengers over the South Eastern road from

the border of the United States, said there

is an unusual activity and suspicion in the

movements among men known to be Fenians,

and that there is an impression of strangers

into the small Canadian towns from

between St. Albans and St. John's. A person

who left St. Albans said that there was a

meeting in that town at the Warden House.

Letters were read from prominent Irish patri-

otic offering pecuniary assistance and all

aid in their power to get together a strong

body of men in the neighbourhood for a move-

ment into the Canadian States. The Canadian

Government has for days past had its volun-

teers in the neighbourhood of the Fenians.

St. Albans seems to be the rendezvous.

FROM MONTREAL.

A CHASTLY BARREL FULL.

A Young Woman Murdered.

MONTREAL, Nov. 18.—A horrible discovery

was made this morning on the arrival of the

steamer Montreal from Sorel. A man named

Emil Couture got off with a flour barrel,

which he tried to remove before paying the

freight. As he looked excited and was in a

great hurry, suspicions were aroused which

were increased when he said the barrel which

he had taken off was empty. On being opened it

was found to contain the corpse of a young

woman clad in her chemise, and packed in

straw and blankets. She had long

flowing black hair, braided, and her right eye

was smashed to a pulp, while a tongue of red

was perceptible at the top. The spectacle was

most horrible and repulsive. Couture was

promptly arrested and said he got the body

from an unknown man, a mile and a half back

of St. Francis. His explanation was very

satisfactory, and he was almost too fright-

ened to speak. The barrel was addressed to

W. F. Hart, Montreal. Couture said first he

was taking the body to his brother, and then

to a medical college. The ghastly barrel

was then removed to the dead-house, and

autopsy will commence this afternoon. A

man who was with Couture when the cab

arrived to remove the barrel has fled.

The Old Log House.

There's an old log house on my father's farm.

And my father and mother are gone.

Not a soul of mine is over head now

In the old log house on the hill.

But fatherly think of the log house days.

Where with brother and sister I used to play.

to porous Plasters, and that is, that they do not
stick. The invention of Benson's Caprine

will positively cure diseases to a few hours,
either of the head, or of the limbs, or of the
torso, and they are so simple, and so easy to
apply, that they are a great boon to the
sufferer. They are in no way dangerous, and
they are so simple, and so easy to apply, that
they are a great boon to the sufferer. They
